

Death Penalty Photo Exhibit Options

Five options to choose from

Unless otherwise noted, the only costs associated with these exhibits are the roundtrip shipping costs. Price estimates are listed below. Please contact Scott for a better estimate based on your ZIP code. If your budget is very limited, you may be able to reduce the over shipping costs in one of two ways: 1) If you can find other venues in your area to host the exhibit before or after you, then the shipping cost can be shared among multiple hosts. Or, 2) If you have a relationship with a business or school department that has a "daily UPS pickup" with third party billing, you can get a shipping discount through UPS (perhaps 15% off). Easels are also available to loan out for only the cost of shipping.
